

PUBLIC NOTICE

OAKRIDGE CLASS 3 LANDFILL  
NEAR THE INTERSECTION OF US HWY 178 & US HWY 78  
DORCHESTER, SOUTH CAROLINA

Waste Management is proposing to expand its Class 3 Landfill and has requested that the South Carolina Department of Health and Environmental Control (DHEC) make a Determination of Need and Consistency (DON). This is the first step in DHEC's permitting process for a landfill expansion.

DHEC has made a draft determination that the proposed expansion meets the requirements of the DON regulations, complies with local zoning, meets buffer restrictions and is consistent with county and state solid waste management plans. This determination is not final and is open for public comment.

Where there is significant public interest, DHEC may hold a public meeting or hearing to explain the permitting process and receive additional comments. Written comments or requests for a public hearing may be submitted through January 6, 2012 to the DHEC contact listed below. All comments received will be considered before a final determination is made.

DHEC's DON letter and information submitted by Waste Management is available for review at the DHEC Columbia Office listed below and in the local DHEC Charleston Office, 1362 McMillan Avenue, Suite 300, Charleston, SC 29405 at (843) 953-0150.

The DON regulations and other information on landfill requirements can be viewed on DHEC's Website at: <http://www.scdhec.gov/environment/lwm/html/solidwaste.htm>

Information regarding the appeals process can be viewed on DHEC's Website at: <http://www.scdhec.gov/administration/appeal-procedure-notice.htm>

Please bring this notice to the attention of persons you know who may be interested in this matter.
